Congress is a little loved, and little understood institution. At heart, it is a place where 100 senators (representing diverse 50 states), 435 representatives (from even more diverse districts), 5 delegates (DC, Virginia Islands, Guam, American Samoa, and the Commonwealth of the Northern Mariana Islands), and 1 resident commissioner (Puerto Rico) are put together and expected to cooperate on public policy, oversight, and more. Yet, love it or not, it is the heart of our national governance system, and its operations and health affect the whole of our political system.

This class aims to deepen students' understanding of the complexities of our national legislature, both in its concept and in its structure and operations. The course also intends to empower students with concepts, knowledge, and skills that enables students to better make sense of why legislators speak and act as they do, and how collective actions small and large can emerge from the interplay of individuals and interests. In short, you will study how a central component of the world's oldest democratic republic functions.

Classes and Readings

There is no book to purchase for this class and all readings are hyperlinked below. For this class to be fun and educational, you will need to read the assignments before class so you can come prepared to talk. Bring your laptop to class.

Assignments and Grading

- 40 percent of your grade is attendance and participation in class;
- 30 percent of your grade is 2 short essays (2 pages each) based on the course readings/materials; and
- 30 percent of your grade is the final exam (a 4-page paper).

Note: "Participation" means speaking up and adding substantively to the conversation.

The short papers can be written during class, or you may draft them prior to class and then turn them in on the class date. When writing, please draw upon class reading materials as appropriate, and anything else that you believe is germane. Embed hyperlinks to supporting sources. (Example: The Congressional Budget and Impoundment Control Act was [signed into law](#) on July 12, 1974.)

There is no class during spring break, which is March 8 to 16.

Final essays are due on May 1. Do not plagiarize or use AI/chatbots in your written work.
